

# WHAT'S REALLY IN A REAM OF REFLEX?

Did you know that when you purchase Reflex Paper products you are helping to fund the logging and woodchipping of Victoria's native forests, including vital habitat for the endangered Leadbeater's Possum?

Victoria's forests are too precious to woodchip for paper.

When you purchase paper products, please choose recycled products and support companies that do not use pulp from native forest logging.

Don't buy Reflex forest destruction.
